Orientation Session on The Institution of Engineers (India) – IEI TCET**Event:** IEI TCET Orientation Session For Academic Year 2026-2027**Date & Duration:**

Date	Time	Venue	Duration
08-07-2026	3:30-4:30	Online	1 hr

Participants: 72 ST CSE (IoT) Students**Objectives:**

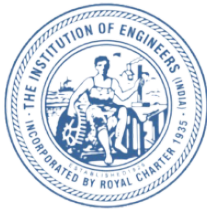

- Introduce students to The Institution of Engineers (India) – IEI TCET Student Chapter.
- Familiarize students with the benefits of joining a professional technical body.
- Highlight the technical events, workshops, hackathons, and outreach activities organized by IEI TCET.
- Encourage students to develop technical, leadership, teamwork, and networking skills.
- Motivate students to actively participate in IEI activities during the academic year 2026–2027.

Faculty Present: Mr. Sunil Khatri (Faculty Incharge, IEI)**Speaker:** Core Committee (IEI, OpenAI & IoT Magazine)**Description:**

The Department of CSE (IoT) organized the IEI TCET Orientation Session for the Academic Year 2026–2027 to introduce first-year students to the Institution of Engineers (India) Student Chapter at TCET. The session began with an overview of professional and technical bodies and emphasized the importance of becoming a part of IEI for holistic professional development.

The speakers explained the vision and objectives of IEI TCET, highlighting how the organization promotes technical excellence through workshops, seminars, hackathons, industry interactions, outreach initiatives, and leadership opportunities. Students were introduced to the faculty mentors, the newly formed student committee, and the various roles within the organization.

The orientation also showcased the successful events conducted in the previous academic year, including technical seminars, hackathons, industry visits, and higher studies sessions. Upcoming activities such as the IoT Flagship Hackathon, AI for Robotics, Zephyr RTOS Workshop, OpenAI Workshops, LLM Workflow Automation, Technical Debate, Teacher × Student Ideathon, and TechCarnival were presented to encourage student participation.

The session concluded with information about the benefits of IEI membership, including skill development, networking opportunities, certifications, competitions, scholarships, and career enhancement. Students were encouraged to actively participate in IEI activities and contribute to building a strong technical community within the department.

SWOT Analysis:

Strengths:

- The session provided a clear introduction to IEI and its role in professional development.
- Students gained awareness about technical events, leadership opportunities, and career benefits.

Weaknesses:

- Limited session duration restricted detailed discussion of all planned activities.
- New students had limited knowledge of technical bodies, requiring additional guidance.

Opportunities:

- Increased student participation in workshops, hackathons, and outreach initiatives.
- Encourages students to develop technical, communication, and leadership skills.

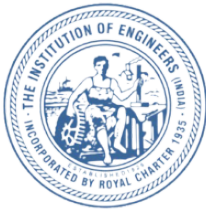

Threats:

- Low student participation may reduce the effectiveness of planned activities.
- Scheduling conflicts with academic commitments may affect event attendance.

5W1H Analysis:

Outreach Activities

Going Back to the Roots

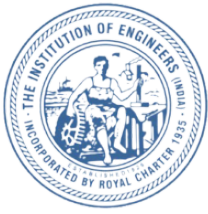

01 / Massive Outreach
This year, we are launching a massive outreach initiative targeting local junior colleges.

02 / Hands-on Sessions
Our members (YOU GUYS) will conduct awareness sessions introducing students to electronics, microcontrollers, and the magic of IoT.

03 / Mutual Growth
This provides career guidance to young minds while developing strong leadership and public speaking skills for our members.
